

kids on the move bridges

diagnostic assessments

A diagnostic evaluation is the first step in attaining proper treatment for Autism Spectrum Disorders. This evaluation will help provide appropriate treatment recommendations.

For Parents Who:

- Are searching for more understanding regarding their child's delays
- Want to help their child succeed and receive the most appropriate services

What We Offer:

- A thorough battery of assessment tools used including ADOS, ADI, and CARS
- Team of diagnostic experts
- Minimal wait time for assessment
- Affordable rates

What To Expect:

- One hour initial play assessment
- Two hour parent interview is scheduled on a separate day
- All assessments are recorded.
- Our assessment team includes a Social Worker, Autism Specialists and a supervising Psychologist

"Bridges focused on the whole family. This makes it more personal, creates a more cohesive role and is unique to anything else I've found out there.

~Parent
